Professional Summary

Motivated and detail-oriented Computer Science and Engineering graduate with hands-on experience in technical projects, software development, data handling, and remote professional environments. Strong foundation in IT troubleshooting, databases, web technologies, and problem solving, with good communication and team coordination skills. Experienced in managing project tasks, maintaining documentation, following up on assigned work, and meeting deadlines. Proficient in Microsoft Excel and familiar with common software, hardware, networking, and technical support concepts. Seeking to begin a professional career as a Junior IT Support Assistant and contribute to efficient IT support operations.

Core Competencies

- IT Support & Technical Troubleshooting
- Incident Identification & Problem Solving
- Task Follow-up & Coordination
- Technical Documentation & Reporting
- Professional Email Communication
- Microsoft Excel & Spreadsheet Management
- Microsoft Word & PowerPoint
- Google Docs & Google Sheets
- Team Collaboration
- Time Management & Task Management
- Attention to Detail
- Quick Learning & Adaptability

Technical Skills

- **Programming:** Python, C, C++
- **Database:** MySQL, SQL, CRUD Operations
- **Web Technologies:** HTML, CSS, Bootstrap, Tailwind CSS, React.js
- **Frameworks:** Flask
- **Tools:** Git, GitHub, Code::Blocks
- **Data & Productivity:** Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Google Sheets
- **IT Fundamentals:** Basic Hardware/Software Troubleshooting, Networking Fundamentals, Operating System Concepts, Basic Cybersecurity Concepts

Professional Experience

Machine Learning Engineering Intern *FlyRank AI*
Remote — July 2026 – August 2026

- Worked in a remote professional environment to complete assigned technical tasks and meet project deadlines.
- Collaborated with team members, communicated task progress, and followed project requirements.
- Handled data and technical information while maintaining organized project workflows.
- Troubleshot technical issues encountered during development and identified appropriate solutions.
- Adapted quickly to new tools, tasks, and technical requirements.

AI Intern *Decode Labs*
Remote

- Participated in practical technical projects and team-based assignments in a professional environment.
- Followed assigned tasks, maintained progress updates, and completed deliverables within deadlines.
- Strengthened problem-solving, documentation, communication, and teamwork skills through project-based work.
- Gained experience working with technical tools and learning new systems independently.

Relevant Projects

Fake News Detection Web Application

- Developed a Flask-based web application integrating a machine learning model with a user-facing interface.
- Troubleshot application, library, model, and deployment-related issues during development.
- Worked with data processing, backend logic, and web technologies to build a functional application.

Online Ticket Booking System

- Developed a web-based ticket booking system using PHP and MySQL.
- Implemented database operations including data insertion, retrieval, updating, and deletion.
- Diagnosed and resolved database and application errors during development.

Academic Team Projects

- Coordinated project tasks with team members and worked toward meeting academic deadlines.
- Prepared technical documentation, reports, and project presentations.
- Applied structured problem-solving approaches to identify and resolve technical issues.

Education

Bachelor of Science in Computer Science and Engineering (CSE)
International Islamic University Chittagong (IIUC)
2022 – 2026

Achievements

- Co-authored an IEEE conference research publication in deep learning and model compression.
- Completed professional internships involving remote collaboration, technical assignments, and project-based work.
- Developed multiple academic and self-driven software and machine learning projects.

Publication

Hessian-Aware Adaptive Knowledge Distillation for Fidelity Restoration in Ultra-Low Bit GANs
2026 IEEE 2nd International Conference on Computing, Applications and Systems (COMPAS), 2026

Languages

Bangla – Native English – Professional Working Proficiency
